

## Letter of Reference

**Re: Parklex Panels Installation at SPCA Community Animal Center Maple Ridge**

Dear Sir /Madam,

Towne Millwork was the “Supply and Installation” contractor for the exterior Architectural Parklex Panels on our SPCA Community Animal Center project in Maple Ridge BC.

From initial contact to finish install Levi and the crew at Towne Millwork have done an excellent job. In some areas they have gone above and beyond to ensure our client was completely satisfied with their chosen product. Since the panels have a natural color variation the installation crew took extra care to ensure the multiple panels were blended for color match to achieve an even look throughout.

Even though the panels had a lengthy delivery time, from Spain, the product and crew were on site as requested in a timely and professional manner.

Sincerely,

Dave Beattie

Project Manager
